Accommodation & Comfort

Accommodation like in a 5-star hotel

The Privita Komfortklinik is a small, personal unit inside the hospital premises, which offers you extraordinary services for discerning persons. Its elegantly set up superior rooms in preferred location fulfill the highest requirements of spatial equipment. The interior design integrates patient room, living area and an office and also ensures that you feel as if you are in a luxury comfort hotel.

You will find your accommodation on the 17th floor of the building, offering a beautiful view over the Hamburg harbour and the river Elbe.

Surroundings

Altona is located in the west of Hamburg. The Hanseatic district is colourful, diverse and cosmopolitan. Altona is characterized by its 950 year old harbour, the third biggest in Europe. The international nature of the borough is reflected by its gastronomic offers, from the Portuguese district or the "Schanzenviertel" to the Michelin-starred restaurants at the Elbschaussee. Enjoy nature at the beach by the Elbe river, or strolling through the Jenisch Park or Volkspark.

Altona is a very popular district among sports fans. One can enjoy internationally renowned horse riding events or visit numerous hockey and football teams based in the area, like the first division Hamburger SV or the second league FC St. Pauli. Their stadiums lie very close by and invite the sightseer to a quick visit on their historic playing fields.

If you are looking for shopping opportunities you can visit the shopping centers in Altona, which are 10 minutes away by public transport. The city center of Hamburg is also easily accessible, either by public transport or car.

About Asklepios Klinik Altona

As a maximum care providing hospital we are at your disposal with numerous specialist departments, interdisciplinary competence centres and one of Hamburg's largest emergency rooms.

Asklepios Klinik Altona is located in Hamburg, directly beside the A7 autobahn and only 15 minutes from Hamburg Airport. The Bremen and Hanover Airport are only 90 minutes away and can also be easily reached via the autobahn. Berlin is reachable in 90 minutes by train. To get to Hamburg from all over the world, there are daily direct flights for example from Dubai, New York, Kiev, Saint Petersburg, and Moscow.

At Asklepios Klinik Altona, more than 85,000 outpatients and inpatients benefit annually from the high-performance medicine of our specialist departments and competence centres. It is self-evident that the employees of the various specialist departments work closely together in order to find the right therapy path jointly with the patient.

Our goal is excellence

The continuous improvement of treatment results is in the interest of our patients. We achieve this with highly qualified personnel, state-of-the-art technology and a high standard of accommodation. Because we want to make our patients' stay in the clinic as pleasant as possible, we offer a friendly climate and an appealing ambience.

The extensive range of services offered by Asklepios Klinik Hamburg Altona is continuously being expanded and the quality of treatment is ensured by a high level of professional competence and extensive interdisciplinary expertise. Our aim is to offer you and your family the best possible service from one single source. We are happy to take care of additional optional services which we offer together with our cooperation partners.

Our International Patient Office provides you and accompanying persons with a wide range of personalised services including translations, appointments, travel and visa arrangements. In most cases, our doctors offer both diagnosis and treatment within one consultation. Doctors can usually give the patient diagnostic test results one to two days after completion of the tests. The time schedules for tests, visits and treatments can often be kept tight for international patients. This means less time away from home, lower costs and more efficient use of the time spent by patients and their families. We strive to ensure that during your stay you will not only feel at home but will also be able to return to your home country in the best possible state of health.

We treat patients from all over the world. Treatment is possible as a self-paying patient, for patients with an international health insurance and also for patients who have a declaration of cost coverage from third parties such as embassies.

Make an Appointment

To discover how we can help, feel free to contact us via the following address: **international.altona@asklepios.com**. To accelerate the process, please provide us with information about the conditions or symptoms and/or specify the treatment you are looking for.

Request an appointment and our International Patient Office will contact you within one business day providing a cost estimate and further information. Please be aware that, depending on the nature of the question, we may ask additional questions in order to obtain the most accurate information possible. The attending physician may also ask for your medical records for the purpose of being able to communicate about the available treatment options.

To speak with our International Patient Office Team in person, please call +49 40 1818 818100 (Monday-Friday, 6:45 a.m. to 4:00 p.m. Central European Time, CET).

Travel assistance and services prior to hospitalization

Our International Patient Office will be happy to help you make your trip as relaxed as possible, offering services to take care of your transport from the airport to the clinic and all other related issues and needs. If necessary, we can also assist you in finding accommodation for relatives or for yourself. If you wish, it is also possible to organize sightseeing events, shopping tours or dining reservations.

In cooperation with PRIVATIMUS we can arrange their services for you and your relatives. PRIVATIMUS is a company of high integrity, scale and reach. Since 1993, they offer an individual and exclusive access point to experienced security experts who can work across cultures, and guarantee tailor-made protection concepts & strategies for your most private concerns, projects and interests.

Their Premium Service includes, but is not limited to:

- Executive Protection Agents (Bodyguards)
- Luxury Limousine Services (incl. Armored Vehicles)
- Hotel & Hospital (Privacy) Security
- Family Protection
- Concierge Services

Our services during your hospital stay

During your stay in the clinic, we will be happy to accompany you to the individual appointments and organize, if necessary, interpreters or other services.

After your hospital stay

After your stay in hospital, we will gladly continue to be at your disposal. If necessary, we will arrange follow-up appointments for you and provide you with the findings, optionally in your native language.
